Group assignment:

Tell me of a time you did (or saw) some  
**REALLY DAMN COOL** science.

It could have changed things.

But no-one listened.

Unmute, or type in chat.

Desired support from the PaNOSC cluster for your project.

# DRA

DIGITAL RESEARCH  
ACADEMY

# OLS

Training, mentoring, coaching - across digital sectors (the “D” in DRA) life sciences (the “LS” in OLS - but also and many other research domains, especially cross-disciplinary!

# OSPARK

Apparently scientists can be  
twitch streamers too!

 **Open Seeds**  
Mentoring & Training Program

- *How will you encourage users to adopt your solutions? Are there any partnerships, funding plans, or integration efforts that will help sustain the outcomes beyond the project's duration?*

Training is something that's always needed. If this sounds exciting and you think you can write some training into your next grant budget, let us know! We're happy to work with you :)

---

- *Please discuss the PaNOSC outcomes do you need help in:*

Getting your teams to come along to these bootcamps, especially our earlier/prototype versions - lots of space for feedback!
